

Affirmation of Baptism Worship Notes

Worship is to Christian Living what breathing is to life. Worship is our breath and no disciple can grow without breathing deeply and daily.

We strongly encourage you to find an inter-generational community with which to worship regularly. To more fully engage in the worship experience, we invite you to take notes during worship at least 7 times before your faith talk.

*Please feel free to adapt this form to better fit your learning style or to simply record your thoughts on a blank sheet of paper during worship.
